

November 12, 2025 at 1038am: On Documenting the Intrusion into Our Bathroom

I am writing this memo to record the ongoing use of vehicles outside of my house to 'signal' the ability to see me inside of my house.

At this time, I am experiencing another common tactic of 'proof' used by the illegal spying state of America into our home: documenting my shaving start and end.

As I began my shaving just now, a vehicle passed my house. This has been an ongoing use of symbolism to tell me to 'shorten' the 'reach and extension' of my mouth, speech, words, etc. 'Clean up your mouth' is what this says to me.

(The truth is that these forces want me to keep talking all day and night because it brings them attention, spreads their terrorism to others, and gives them more material to work with as they engage with my home)

As I ended my shaving just now, another vehicle passed by to notate the end of the shaving.

These types of 'learning' are confirmed with additional 'drive by' activity to impress the point, etc.

I can generally sense a building of noise activities around our home (as is occurring right now from another loud vehicle construction sound, or train perhaps - it is now later in the day and more difficult to determine exactly what is causing increases of agitation sounds) as I get things 'right' or learn to comprehend a particular message, etc.

The point that I am recording is that we are being watched inside of our bathroom area by the same spying presence that refuses to leave our home, comments into our daily life, and threatens to harm me if I bring legal action against it.

This is the type of behavior that is emanating from inside of the Pentagon in 2025.

This behavior continued through both of the previous two presidents of America and I anticipate that it will continue after the current president leaves office.

I have been alerting the US House of Representatives, the Texas House of Representatives, and other important governmental and law enforcement organizations that this is occurring and so far I have not received any form of confirmation or positive feedback that this type of behavior is being investigated in any way.

I am writing publicly to record that this is regularly occurring to me inside of my home and is a real phenomenon in our modern technological world.

In fact, this type of behavior is also represented in popular culture (as is so much of what I am experiencing) which shows that it is a 'pre-planned' event being carried out after sharing the message with other insiders.

A visual representation of this phenomenon can be seen in the movie: Nobody (2021).

(I am experiencing air horn 'toots' now to confirm my understanding)

This is life in what used to be America as government spies have embedded themselves into the national security apparatus and are spying on us inside of our bathrooms as a form of intimidation and threat against holding them accountable for crimes as bad as murder, rape, harassment, stalking, and pedophilia. Things are not okay.
